

## ALTERNATE APPROACH MAP – SIDE PARKING

### ***OWNER'S TIP ON PARKING***

There is parking available at the front of the cabin and along the side (near the front porch steps).

Following the more direct **[Blue]** route will result in either your vehicle pointing in the wrong direction on the lower parking area or require a tight turn into the side (upper) parking lot.

We suggest following the **[Red]** loop access route – and approach the cabin from the rear. This results in an easier approach to the upper side lot. Also your vehicle will be correctly aligned at the lower parking area.
