ADDITIONAL COMMENTS

EXPANDED SCOPE OF WORK STATEMENT

At the request of the client, this appraisal report has been prepared in compliance with the Uniform Appraisal Dataset (UAD) from Fannie Mae and Freddie Mac. The UAD requires the appraiser to use standardized responses that include specific formats, definitions, abbreviations, and acronyms.

The appraiser attempted to obtain an adequate amount of information in the normal course of business regarding the subject and comparable properties. Some of the standardized responses required by the UAD, especially those in which the appraiser has NOT had the opportunity to verify personally or measure, could mistakenly imply greater precision and reliability in the data than is factually correct or typical in the normal course of business. Examples include condition and quality ratings as well as comparable sales and listing data. The appraiser makes no representations, guarantees or warranties, express or implied, regarding building materials, their fitness, quality, condition or remaining economic life. Not every element of the subject property was viewable. The appraiser did not move any personal property, due to liability concerns for potential damage to the property, to disclose or reveal any unapparent or hidden defects to the structure, nor did the appraiser dismantle or probe the structure to observe enclosed, encased, or otherwise concealed areas. Comparable data was generally obtained from third-party sources including but not limited to the local MLS, County Assessor, Township Assessor, online resources and additional public data sources. Consequently, this information should be considered and "estimate" unless otherwise noted by the appraiser.
